Felon Believed to Have Swam
The American River and Now
In Hiding

SACRAMENTO, July 28.—While an armed posse of thirty-five prison guards, headed by Warden J. J. Smith, searched the hills surrounding Folsom state penitentiary tonight, roads leading into the Sacramento Valley were guarded at Auburn and Roseville to apprehend John Marion, 29, convict who escaped today.

Eluding the vigilance of three guards on the prison ranch outside the high walls, Marion made a daring escape shortly after noon from a gang of forty-six convicts who were clearing brush from the hill-sides. The prisoner broke his way through the dense undergrowth, which afforded him excellent hiding when the alarm was given and posses spread over the countryside.

Belief that the fugitive worked his way through the timber to the American River and then swam the stream was expressed at the warden's office tonight when no trace of the man had been found. At the point where Marion disappeared—one mile north of the prison—the river current is said to be sufficiently sluggish to permit swimming with safety.

Prison officials said the escaped man, gaining the far bank of the river, would be in position to take to nearby Sierra Nevada mountain fastnesses or to turn toward the valley by way of Auburn and Roseville. As need for food in his break for liberty is thought to have turned Marion in the latter direction, authorities in the Placer county cities and in Sacramento as well, were warned to be on the lookout.

Marion, a Mexican, whose height was given as five feet, seven inches and weight as 160 pounds, was received at Folsom on January 9, 1924, from Ventura county where he was convicted of burglary. His term was fixed at four years. Though he had previously served a sentence in San Quentin for burglary, he is said to have been a model prisoner at Folsom until today.

"BILLIE" CASE THIS EVENING TO BE WATCHED

Whether Frank Davis, Albany speed cop used undue force in arresting Fred Schultz, Arbutle farmer, last Friday night for speeding down San Pablo avenue will be fully investigated at a police court hearing in Albany this evening and upon the result of that hearing probably hangs Davis' future as a traffic officer and the extent of Schultz' guilt in the matter.

It is claimed by Schultz who went to Martinez to seek a warrant for Davis, that the traffic officer struck him over the head with his "billie" after the handcuffs had been applied. To this Davis replies that he used his club alright, but that Schultz was kicking him on the chins and that such force as he used was in self-protection.

District Attorney A. E. Tinning stated that several complaints have been filed against Davis and that he will attend the hearing this evening, but only in the capacity of a much interested spectator at the trial. So far as Schultz' contention of Davis being without authority to arrest him after he had crossed the city boundary and was in Contra Costa county Tinning denounces this as pure buncombe inasmuch as the state laws cover the jurisdiction of traffic officers in such instances and asserts that Davis was entirely within his rights.

BUILDING COM. OF VETERANS TO BE BANQUETED

Plans for the banquet to be given on Saturday evening, September 12, at 8 o'clock by the Allied Council Veterans, to the Building committee of the new Memorial hall in Twelfth street, were furthered to a great extent at the meeting of the banquet committee of the council, held last night at Memorial hall.

Appropriate invitations were prepared and ordered sent to the members of the city council, city officials, supervisors, Chief of Police, Dan Cox, and Fire Chief W. P. Cooper. It was decided that the committee would meet at the hall on Sunday morning at 10 o'clock to take an inventory of the stock of cooking utensils, silverware, and chinaware, in order that requests for any needed articles may be put before the directors as soon as possible.

The banquet committee has been divided into two sections. One half will take care of the entertainment of the evening, and the other half will see that the dinner part of the affair is properly taken care of.

The finishing touches will be put on the event at the next meeting of the committee, which will be held on Tuesday evening, September 1 at 7:30 o'clock in Memorial hall.

'MAX'S INN NOW UNDER CONTROL OF EUNICE COYER

EL CERRITO, July 28.—Max's Inn at San Pablo avenue and Potrero avenue is in the hands of creditors, according to statements made at the meeting of the trustees of El Cerrito this week, when Mrs. Eunice Coyer of Richmond was granted a permit to sell soft drinks at the place and also conduct a dance hall.

It is understood that there are outstanding debts on the place amounting to about \$5,000. It was opened by Max Sheehan about a year ago.

An agreement has been entered into by the creditors, and Mrs. Coyer will be in charge, and an effort will be made to see if the obligations cannot be paid off.

Hazelton Much Pleased With The
Patronage Given Store By
Buying Public

The formal opening of the new J. C. Penney company store will take place this morning, in the new home at the corner of Seventh street and Macdonald avenue. Ever increasing business has justified the company to move its local establishment to a larger and better location.

Arcade windows, new lighting effects, and new display cases and show counters in the interior have resulted from the remodeling that has been going on for several weeks. A floor space much larger than at the old location will permit several new departments not possible before. The departments will include men's clothing, men's, women's and children's shoes, dry goods, house furnishings, such as aluminum ware, rugs, drapes, and other articles, drugs, notions, ladies' ready-to-wear goods, millinery, and men's furnishings. The work of moving has been taking place for a week.

The newest ideas in merchandising have been carried out in the lighting effects, steamheating plant, ladies' rest rooms, and other facilities that have been installed.

All waiting for change will be eliminated by the new rapid cash system. "J. C. Penney company" will grace a huge electric sign on the exterior. Through arrangements made by E. H. Keuffer, owner of the property, the outside of the building will be adequately illuminated.

One hundred and five stores have been opened by this company during the year, bringing the grand total throughout the United States up to 576. Fifty of them are in California.

M. E. Hazelton, manager of the store here has a one-third interest under the Penney system. Hazelton came here from Santa Rosa two years ago to open the store. He has proved himself a young man of remarkable ability, as evinced by the success of the Penney company undertaking here. Hazelton will make Richmond his permanent home, as the managers of the stores seldom change.

Ten employees were connected with the old store, but to handle the business at the new location twice that many will be employed.

Hoey is prosecuting Lopez and Mortimer B. Veale of Antioch is representing the defense. Fire Hydrants Are Ordered By Trustees Of E. C.

EL CERRITO, July 28.—As the result of action taken by the board of trustees this week, trustee Zimmerman has instructed the East Bay Water company to install 60,000 feet of six inch water pipe and 84 fire hydrants. This is the beginning of the new fire protection system to be installed under the bond issue of \$65,000, which was voted a short time ago.

The Key System Transit company, granted permission to the board to move the waiting station at the corner of San Pablo and Stockton avenues. Marshall Forrest Wright was instructed to take care of the moving.

A communication was read from the Western States Gas and Electric company stating an arch light had been installed at the corner of San Pablo and Central.

The application of Mrs. Eunice I. Coyer to operate a soft drink establishment and dance hall at Max's Inn was granted. Mrs. Coyer is representing the creditors of Max Sheehan.

The applications of Harry Kalis and W. A. Hines for appointment as fire chief was laid over for one week as more applications are expected to be filed.

SKULL CRUSHED FROM CRASH OF TWENTY-TWO FT.

Believe Body Came in Contact
With A Live Wire Causing
Electrocution

NO WITNESSES TO ACCIDENT

Thorough Investigation of Cause
To Be Made by Coroner
Donnelly

Special to Record-Herald

PITTSBURG, July 28.—Captain John Augh, of the ferry of the Sacramento Short Line, met with a tragic death, near here this evening, when his body was hurled a distance of 22 feet, striking the railing of the boat, and the falling onto the deck.

Bleeding and suffering from cuts and bruises, he was picked up by the deck hands and rushed to the hospital here, where it was found that he had suffered a fracture of the skull. Death followed in a short time.

At no time after the accident occurred, was Augh conscious, and as a result the exact cause of the accident will never be known.

It is believed while Captain Augh was standing on the outside of the pilot house, as the ferry was approaching the S. J. county side, that in some manner his body came in contact with a 600 volt power line.

The force of the shock caused him to lose his balance and he plunged downward, landing on the railing.

Captain Augh was one of the pioneer employees of the Sacramento Shortline. He piloted the first ferry boat of the company across the narrow strip of water between the two counties when the service was started years ago. He was wide and favorably known throughout his country, working here for many years, and being of such a personality as to make friends without effort.

Coroner C. F. Donnelly, of Richmond, will arrive in Pittsburg tomorrow to make an investigation of the accident. The date of the inquest has not been set.

The deceased is mourned by a widow and several children, as well as innumerable friends, both in Oakland and Contra Costa County. The remains are at the Preston and Bruncher funeral home here, while arrangements for the funeral are pending.

Permits For Camp
Fire Necessary

Hunters and campers are being warned by the California State Automobile Association that forest service rangers are rigidly enforcing the requirement for camp fire permits this year, in an effort to avert repetition of last year's holocaust. With this situation in mind, the Association has arranged with the United States Forest Service to issue camp fire permits not only to its members, but to the general motoring public. These permits, as well as hunting and fishing licenses, may be obtained at any of the Association's twenty-four district offices.

The Phone In Europe

(By Universal Service)
PARIS, July 28.—A European telephone central switchboard with polygraph operators, uniting the principal trunk lines of Europe into one large system will be the first result of the International Telephone Conference under the auspices of the League of Nations now in session here.

Speakers showed that it was easier now to telephone from New York to San Francisco than from Paris to one of its suburbs. Telephonic delays cited were: Paris-Berlin, eight hours; Paris-London, six hours; Paris-Rome, 24 hours; Paris-Madrid, 19 hours.

Telephonic communications with Rome and Madrid from Paris are so difficult now that letters are generally faster, while to telephone between Paris and Warsaw, Constantinople or Italian cities is impossible.

Under the new system, which will require about a year before it can be put into operation, all the European capitals will be linked in one vast trunk system uniting at a series of

If Back Hurts
Flush Kidneys

Drink Plenty Water and Take Glass of Salts Before Breakfast Occasionally

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which helps to remove the body's urinous waste and stimulate them to their normal activity.

The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of good water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts. Take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate clogged kidneys; also to neutralize the acids in the system so they are no longer a source of irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep their kidneys clean and active. Try this; also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. By all means have your physician examine your kidneys at least twice a year.

Dempsey's Title May Be Declared Vacant

N. Y. COMMISH TAKES ACTION ON AUGUST 4TH

Harry Wills And Gene Tunney May Be Matched For Championship

JACK'S TIME IS SHORT

Doubt Expressed as to Champ's Intention to Return To New York

NEW YORK, July 28.—Jack Dempsey's heavyweight championship title will be declared vacant by the New York boxing commission and Harry Wills and Gene Tunney will be asked to fight it out to decide the successor if the champion ignores the commission again.

Dempsey has been given until August 4 to return before the commission or to notify the board members what plans he has made to accept the Wills challenge. This period of grace was granted by the commission in response to the plea of the champion that he had to go to California to protect some business interests that were endangered by his rupture with Jack Kearns, his manager.

Since then, it was learned today, the commission has heard from reliable sources that Dempsey does not intend to return to New York in the near future; that he does not intend to fight any dangerous opponents and there is some bickering in the verbal bout he has been staging with Kearns.

The commission is being panned severely for the silk-glove methods it has been using in handling the heavyweight champion situation and it has been pointed out that no other champion could get away with what Dempsey has without incurring the wrath of the dukes.

The commission, however, is rather up against it, because Dempsey hasn't a New York license and officially he is not under the jurisdiction of the New York board.

The situation, it is understood, will be discussed at today's meeting of the commission.

LOS ANGELES, July 28.—A pale but hearty Jack Dempsey resumed gymnasium training here yesterday in preparation for his forthcoming return to the prize ring.

The heavyweight champion worked for about an hour, spending a few minutes with the pulleys, another brief period at the punching bag and another with the big sand bag, and

BABE GETS ANOTHER HOMER

NEW YORK, July 28.—Babe Ruth of the Yanks hit his eleventh home run of the season, Ernie Wingard was pitching for the Browns.

still another in the ring, where he knocked out one man, sparred with another and wrestled with a third. All this occupied only thirty minutes, so there was another thirty minutes of camera workout in which Dempsey posing against a background of sporting celebrities, was subjected to a grueling bombardment of flashlights and clicking shutters.

The celebrities assembled to witness the champion's workout included Jack Curley, one of the promoters of the Willard-Johnson fight; Tom Jones, former manager of Jess Willard; Lou Daro, said to be the only wrestling promoter with a dress suit; Joe Stecher, the wrestling champion and others who have watched Dempsey's climb to world boxing supremacy.

There was one conspicuous vacancy in this applauding group, however, Jack Kearns was not anywhere to be seen.

LOS ANGELES, July 28.—The two "Jacks" met this afternoon, Jack Dempsey and his manager, Jack Kearns were together for more than an hour.

But it was not to makeup their differences. The meeting occurred in an attorney's office and it is said they discussed a complete separation and the partition of their real estate holdings. Neither would talk after the conference, but Dempsey said he might have something to say later.

Their joint property includes two apartment houses and an interest in motion picture ventures, one of which stars Dempsey and Estelle Taylor his wife. The champion went to a gymnasium for a "work-out" after the conference, but his brother indicated the meetings was the first step in the final break between Dempsey and the man who stood by his shoulder as he punched his way up the pugilistic ladder.

MOTHER IS BENEFICIARY OF SOLDIER INSURANCE

Word that she is the sole beneficiary to \$10,000 insurance provided by the government through the Veterans' Bureau, has been received by Mrs. Isabelle Nesbitt, 227 Seventeenth street, whose son, Randolph Nesbitt, gave his life in the World War.

Mrs. Nesbitt had never laid claim to the insurance, believing that it would go to her son's widow. The latter is said to have remarried shortly after the close of the war, however, leaving Mrs. Nesbitt as the sole beneficiary.

S. O. League Coming Into Hard Finish

The time is now approaching when the outcome of the Standard Oil league for 1925 will be decided. There are six more scheduled games and as many more postponed games to be played off. The All Standards are leading the league, by now what looks like a substantial majority—3 games.

This evening the All Standards and Rod Allen's Barrel House will tangle. Looking at the game from the face, it appears as though Charley Friene's outfit out to have a pretty easy time of it. But then taking a glance at the cross section of the matter, the Barrel House has taken a jump recently and is apt to give a powerful struggle.

Tomorrow night the Refinery and the Mechanics will be seen in action. The latter team is far in the lead, but it is Hal Dimock's turn to leave, so an interesting session is anticipated.

"MARY" SUBPOENAED IN KIDNAPPING CASE

LOS ANGELES, July 28.—Deputy District Attorney McCartney announced late today that the state had issued a subpoena for Mary Pickford to appear as a witness for the state in the trial of Charles Stevens and Adrian Woods on charges of conspiracy to kidnap the film actress. It is expected that the state will have Miss Pickford testify that she was at the studio when the men were taken into custody. The defense had previously subpoenaed Mary to testify for the defense that she was not in the studio when the men were arrested.

CONDEMNED MAN UNDERGOES TESTS OF PSYCHOLOGISTS

CHICAGO, July 28.—Russell Scott was back in the death cell today, but under slightly different circumstances. This afternoon he went under tests by psychologists, one of which was Dr. Sam Hulbert, who conducted tests similar to the ones he gave to Nathan Leopold and Richard Loeb during the Hobbs Franks trial here last year.

No Witnesses To Death of P. M. At Paso Robles

PASO ROBLES, July 28.—Tom Henry, postmaster at Paso Robles for many years, was apparently accidentally killed here today while cleaning his gun in the rear of the postoffice. While there were no witnesses to the tragedy, it is believed that Henry was killed by the accidental discharge of the gun. Death was almost instant, it is believed.

The inquest will be held tomorrow afternoon at Paso Robles.

Ladies Aid Hold Social Meeting

EL CERRITO, July 28.—The regular social meeting of the Methodist Ladies Aid was held last Thursday. The program was as follows: recitation Mrs. W. Craig; quartet, Mesdames Craig, Gray, MacMichael and Hemphill; piano solos by Mrs. Mansfield and Raymond Glover.

The next meeting of the Aid will be held at the church parlors at 2 p.m. August the 2nd.

GOVERNOR NOT LIKELY TO INTERVENE IN CASE

SACRAMENTO, July 28.—Unless Governor Richardson intervenes, which was considered improbable today, Charles Craig, convicted slayer of James Samuelson in Red Bluff, on July 10, will die on the gallows at San Quentin Friday. Craig and a companion robbed the Bank of Telama on July 10, and were pursued by Samuelson, who, armed with a revolver, caught them in the mountains near the scene of the robbery. The bandits resisted capture, however, and killed Samuelson with his own revolver.

DAMAGES ASKED G. W. POWER CO. FOR 1 MILLION

MARTINEZ, July 28.—The largest damage suit in the history of the Contra Costa courts was filed this morning when the Great Western Power Co. was named defendant in two suits in which the damages, arising from the same cause, total close to one million dollars. The suits, which are the sequel to the fire which destroyed the great grain warehouses at Port Costa on September 13, 1924, are filed by the California Wharf and Warehouse Co. and the Balfour Guthrie Co., the latter permitting five individual grain owners to join in its general suit, the sum total asked in damages being \$899,382.51.

The plaintiffs and the sums asked are:

California Wharf and Warehouse Co. (buildings, equipment, etc.)—\$279,459.25.
Balfour Guthrie & Co. (8916 long tons of barley and 3900 jute grain bags)—\$578,591.25.
W. K. Allen (5773 sacks barley)—\$21,284.27.
John Cook & Eben Ferguson (5128 sacks barley)—\$13,085.55.
E. Salz & Son (891 sacks barley)—\$16,238.55.
R. E. Hansen (522 sacks barley)—\$2,457.45.
Estate of F. H. Ludwighouse (643 sacks barley)—\$17,402.20.
Thomas, Stephens & Mattei (530 sacks oats)—\$11,139.49.

In the complaint which was filed by Goodfellow, Eells, Moore and Orrick, H. M. Sawyer and Alfred Cluff, attorneys for the plaintiffs, it is charged that negligence and carelessness on the part of the Great Western Power Company in operating its electrical equipment in the "transformer room" was directly responsible for the fire. The warehouse machinery, elevators, etc., were electrically operated and the fire was discovered in the transformer room where the 22,000 voltage was required to 440 volts for commercial use.

The fire broke out at 12:30 o'clock in the morning and spread so rapidly that before the Southern Pacific, C. & H. and other plants could send fire fighting equipment the warehouses with all their contents were doomed.

A. L. Auxiliary Chooses Its State Delegates

The election of delegates to attend the state convention to be held at Catalina Islands on September 15 to 19, was the most important matter to come before the meeting of the Auxiliary to the American Legion held in Memorial hall last night.

The ladies who will represent the auxiliary are: Mrs. Clara Barry, first delegate; Mrs. Mae Donnelly, second delegate; Mrs. Alyce Reischneider, third delegate. The alternates were chosen in Mrs. H. D. Baker, Mrs. W. A. Vickery and Mrs. H. M. Calkins.

The convention of the auxiliaries will be held at the same time as that of the American Legion posts of the state.

Plans for a big whist party were made at the session. The party will be given on August 25, and preparations are being made for a great time. The committee in charge of the affair consists of Mrs. Donnelly, chairman; Mrs. Reischneider and Mrs. Vickery. These ladies have already provided a number of handsome and valuable prizes for the affair and they promise a fine time to all who attend.

Last night's meeting was followed by a social time, with the evening being rounded out with refreshments. Mrs. Clara Barry, who presided over the business meeting, as president, also had charge of the social affair.

The new date of the sale will be announced when the chairman is again able to carry on the work.

VOL. XXVI, NO. 491.

RICHMOND, CALIFORNIA WEDNESDAY, JULY 29, 1925.

NO INCREASE IN CITY TAX RATE

COUNCIL WILL
ADOPT BUDGET
NEXT MONDAY

The tax rate for the City of Richmond for the coming year will be the same as in 1924 according to a statement made by City manager, J. A. McVittie yesterday. It will not exceed \$2.00 on each \$100 of assessed valuation of property.

Under the provisions of the budget it will be necessary to raise \$494,500 which will require a tax rate of \$1.86. To this must be added the rate for library and school purposes which will bring the rate to \$2.00. The library tax will probably be .10 and the school tax .04.

The new budget will provide for the appointment of two new patrolmen to the police force, and salary increases for the police judge and city veterinarian. Police Judge C. A. Odell will receive an increase of \$25 a month or a salary of \$175 monthly, and Dr. R. R. Root, city veterinarian, will receive a raise of \$10 a month or \$210 monthly, provided the budget is adopted as submitted.

One of the new appropriations carried in the proposed budget provides for \$24,000 with which to complete the Richmond natatorium. The bond issue of \$85,000 was not sufficient to pay the entire construction cost of the bathhouse. The bulk of the \$24,000 will be expended on equipment for the natatorium, it was said. Another item provides for the expenditure of \$28,000 for installation of the new fire hydrants. Last year's budget carried \$14,000 for new hydrants.

The sum of \$6,000 is provided for the Macdonald avenue improvement in front of Nicholl park.

Another change made was the equalization of automobile operating expenses for city officials, placing this allowance at about \$35 monthly. Appropriations from general fund follow:

GENERAL FUND		
General Government	\$72,025.00	
Protection to Person and Property	212,945.00	
Conservation of Health	9,540.00	
Sanitation	23,640.00	
Highways	\$2,430.00	
Charities	7,300.00	
Recreation	53,720.00	
Public Service Enterprise	17,400.00	

Total \$481,000.00
The general fund total is reduced to \$377,700 by estimated receipts of \$85,300 and by the balance of \$8,000 from the 1924-25 budget.

The total budget as submitted follows:

	Tax Rate	Amount
General Fund	\$1.42	\$377,700.00
1912 Bond Interest and Redemption Fund	.26	69,000.00
1920 Bond Interest and Redemption Fund	.13	34,500.00
1922 Bond Interest and Redemption Fund	.03	8,000.00
1924 Bond Interest and Redemption Fund	.02	5,300.00
Totals	\$1.86	\$494,500.00

"Desert Flower" On Bill

Colleen Moore in "The Desert Flower"

The real West was sought out to furnish backgrounds for Colleen Moore's latest First National offering, "The Desert Flower," now showing at the California theatre.

When it was necessary to show life in a railroad construction camp at a Western terminus, the producers were able to locate just such a camp forty miles from Barstow, in California.

When a desert sequence hobbled up in the continuity of the play, there was the storied Mojave not so far away.

When a mushroom mining town had to be pictured, such an abandoned settlement was found leaving the director free to make unhampered use of it after carpenters had done the necessary tinkering and touching up.

These scenes were peopled with players picked primarily for their knowledge of Western customs and quirks, so that "The Desert Flower" truly holds up the mirror to nature and is atmospherically and, as to characterization, as true a picture of untrammeled life in the West that was as it is possible to present upon the screen.

Other features on the same program include "Below Zero," a Lige Conley comedy; "Endless Waters," a Robert Bruce scenic; "Cross Word Puzzle," International News, Larry Canelo at the organ.

Paulsen upholding the negative. The latter team won, according to a decision reached by Hall Sanders, the president of the Kiwanis club, who acted as the judge.

A challenge was hurled at Zeb Knott, head of the Painters, by W. A. Potter, head of the Potters, to an attendance contest in which the loser will pay \$20 into the Boy Scout fund. At the session yesterday, vocal solos were furnished by Bert Carter.

100 YEARS OLD, SERVED
IN WORLD WAR THOUGH
HE HAD REACHED AGE 93

When this photograph was taken recently in Cleveland, O., Matt Green figured himself just 100 years, six months and two weeks. He has been in the service of Uncle Sam practically all the time since he was 21 when he went into the army after his sweetheart had jilted him. Green was 93 at the time of the World War but managed to get into the service and served in France. He is still a bachelor and believes he will be able to hold out against woman's wiles until the end.

"North of 36" Film
Furnishes Thrills
Of Pioneer Days

The journey of Columbus across the Atlantic in 1492 required no more courage than the trip made by the Pioneers of the south in their attempt to establish a definite trail between Texas and the railroads in Kansas.

The first caravan traveling from the Gulf of Mexico to northern United States faced fearful odds—Indians, Carabet-baggers, floods, fire, wild animals and many more obstacles described in Emerson Hough's historical novel "North of 36," which Ivan Willat produced in picture form for Paramount.

Like Columbus, the first caravan had no guide save the compass and stars. Nobody had ever been over the trail before. Those who had attempted never returned to tell the tale. What happened, nobody ever knew.

In "North of 36," the first journey from the south to the north is told upon the screen scene for scene as it actually occurred sixty years ago. Nothing has been left out, nothing added. The true story of the hardships and suffering of the brave band was so thrilling that it required no change to achieve the supreme in drama.

Prominent in the cast of "North of 36" are Jack Holt, Ernest Torrence, Lois Wilson, the "Covered Wagon" girl, and Noub Beery.

The picture opens a two days run at the Richmond theatre today. Other features on the same program include "Easy Pickins," a Neal Barnum comedy, and "Prizma," a screen magazine.

NEW MODELS OF
BUICKS CAUSE
MANY RUMORS

Is Buick going to come out with a straight eight?

Is Buick about to announce a low-priced six?

Will Buick discontinue the famous Valve-in-Head motor?

Will the 1926 Buicks have much greater horsepower than their predecessors?

Will Buick prices be higher—or lower?

Are the new Buicks going to feature the new two-tone color effects?

These are only a few of the countless questions being asked these days at local Buick headquarters. A hundred rumors concerning 1926 Buick activities fill the air. For Buick will present its 1926 models on Saturday, August 1, and as usual this annual presentation is looked forward to as the most important event of the year by thousands of interested motorists.

Clark Kratzer, Buick dealer, here, steadfastly refuses to discuss any details the new Buick models prior to their unveiling at the local Buick sales establishment, on Saturday. He will neither deny nor confirm a single rumor.

That the 1926 Buicks contain many absolutely new and sensationally valuable features, C. C. Kratzer does admit. He points to the recent statement of President H. H. Bassett of Buick factory, in which the Buick president states positively that Buick will continue to improve its products each year. Buick employs a great corps of famous engineers and spends a vast sum annually in the perfection of new and improved features for Buick automobiles.

Last year all records were broken by the tremendous rush of visitors to see the new Buicks the day they were announced. This year preparations are being made to accommodate even greater throngs at the local Buick headquarters on August 1.

THE GREAT CIVILIZER

Farm population was placed by census authority at 31,134,000 January 1, compared with 31,316,000 a year earlier.

Atlantic coast states showed net increases in farm population, other sections leading in decline.

Young and old leave the farms because they think city life is more attractive but the same agency which has given attractions to the city is now turning its energy toward the farm. Electricity will revolutionize farm life just as it has the city.

Light is the great civilizer. When a farmer's wife can press a button and flood her house with light, wash her dishes, pump and heat the water, run the churn, sewing machine, washing machine, ironing machine and vacuum cleaner, make ice in the refrigerator, curl her hair and do innumerable other things with electricity, how much more attractive will be the farm homes.

When the farmer can press a button and light his barn, milk his cow, chop food for the cattle, saw wood, thresh grain and do scores of other things which are now downright drudgery, farm life will become more attractive for him and the boys.

Electric road lights will begin to appear at crossroad corners. The telephone and the radio will give the same universal communication facilities that are enjoyed in the city. Moving picture houses will gradually appear in advantageous locations which can be reached from a five or ten mile radius by automobile.

Thus, as electricity takes light to the farm, it will emphasize the advantages of farm life over crowded city life and draw the people from the thickly populated districts back to the rural districts.

CODE OF ETHICS OF EDITORS

The Southern Newspaper Publishers association at a meeting held recently, in Asheville, N. C., adopted a code of ethics based on the assumption that newspaper's first duty is to print the news, honestly and fairly, unbiased by any other consideration.

Among the points made in the code were these:

"Recognizing honest differences of opinion exist, we may vigorously maintain our own position without denouncing others as dishonest and unfair."

"Decency should be the guiding star in the printing of news, editorials, advertising and all feature articles or illustrations."

"Is it fit to print and to be read by my own mother?" should be the test rather than "Will it sell more papers?"

"Consideration for the unfortunate and for guiltless victims of the faults of others."

No story justifies needless damage to a good reputation nor wanton pain to an innocent."

"Respect and tolerance for those of different religion, races and circumstances of life."

"Honesty in all dealings, whether with readers, advertiser, employees or competitors."

"Truth first, last and always."

Some states are spending heavily because they very properly held back on improvements during the war. Others are spending rashly. Every state and every subdivision of it may well take a leaf from the Harding-Coolidge book and lower expenses wherever possible. The people enjoy direct tax reduction.—N. Y. Sun.

Witnesses in a lawsuit in New York recently told of the discord in the democratic campaign headquarters of 1924, which is about as pertinent as discussing the strategy of the battle of Gettysburg.

France and Germany have just signed a potash agreement which again proves that European enemies can always get together when there is a chance to trim somebody else.

The Up-to-date Sportsman Finds Coat Sleeves a Vexation So She Wears Sleeveless Jacket.

FOR many, many years there has been a particular odium attached to the sight of a man in his shirt sleeves—that is, a man in his shirt and his waistcoat. When he takes off his waistcoat he becomes a man in a shirt—and this is informal but perfectly permissible negligence, in very warm weather.

But a woman in her shirt sleeves is quite another matter, so is a man when he is wearing a sleeveless sport jacket and not the conventional waistcoat. It really is interesting that clothes prejudice still persist. A woman many show her bare knees almost anywhere she wants to nowadays, but a man in his shirt sleeves would be looked upon with alarm and aversion.

It is not a mere trick of fashion that leads women to wear sleeveless sport jackets and riding coats. For almost all outdoor sports the less restriction one has about the arms the better. Many women play tennis with the shortest of short sleeves when the weather permits. The sleeveless jacket gives warmth when warmth is needed without adding troublesome weight to the arms.

The sport jacket shown in the sketch is of turquoise blue velvet worn with white crepe de chine blouse and pleated skirt. The blouse is embroidered in turquoise blue and the shoes are trimmed with kid pipings of the same shade.

The choice of turquoise blue here is significant, since it is the new turquoise shade introduced by the French milliner Caroline Reboux several seasons ago. She has kept harping on this shade, quite confident that it would eventually find favor with women of discrimination. Interestingly enough it is not exactly turquoise—but contains rather more green than the actual stone so called. This is not surprising. Jade green as known in fashion was not and is not exactly the color of Chinese jade, which has a soft, grayish quality about it that is inimitable. Doubtless the same might be said of other colors that have enjoyed fashionable favor from time to time. Chow was probably not the color of a real chow dog, nor would the once popular mustard have matched up exactly with any real mustard.

Mince the onion finely, and mix it with a cup of fine bread-crumbs, the dried sage, and some pepper and salt. Bind with one egg. Spread some of this in each piece of liver, and cover with a slice of bacon. Lay the sandwiches in a casserole dish, cover with

one pint of hot water and a teaspoon of vinegar and put the lid on the dish. Bake in a moderate oven for three-quarters of an hour.

Corn Fritters: Grate the corn from thirteen ears of sweet corn, add a little pepper, a pinch of salt, one tablespoonful of flour, and two eggs well beaten. Bake on a buttered griddle and serve at once.

Beef a la Mode: Take a thick short piece of rump steak weighing about 1-2 pounds, cover with strips of fat bacon, and tie into shape. Place it in a large saucepan, and a cup of cold water, and salt and pepper to taste. Bring it to the boil. Serve five or six young carrots and peel four or five onions. When the contents of your saucepan are boiling, put in the carrots, onions, three or four cloves, and a bunch of herbs. Let this simmer very gently for three hours, then place the meat and vegetables in a deep, hot dish, and strain the gravy over it.

"THE LIMITED MAIL" with Monte Blue, is a dramatization of this story by Warner Bros. Pictures, Inc.

SYNOPSIS

A tramp, about 25 years old, is nursing a reluctant bon-fire, while his companion, Potts, an older man, kneels on the edge of an abyss, seeking with the aid of a tin can and a long cord to draw water from the river. Suddenly a small boulder, crashing from the heights of Granite Gorge, and grazing Potts, causes him to slide over the brink. The younger man finds him entangled in a brush only three feet below and rescues him.

CHAPTER I—Continued

"Prop your cover, Bob, and we'll get the water. It's way past a polite hour for the evening meal now!"

Presently, with Bob seated across his legs, Potts was stretched flat on his stomach—that is, as flat as the bulging front outline of his figure would permit—lowering a can on a string toward the river that was invisible, though only thirty feet down. It was an uncanny operation in the darkness and Potts had to handle his line as daintily and skillfully as a trout fisherman to keep it from being snatched away from him by the rushing water. Three times he emptied the small can into the large one, which Bob held. The fourth time he retained the water in the small can; that was for coffee.

Bob, obviously a neophyte vagabond, forgot some of his own pre-occupation as he watched the fat and tattered philosopher prepare, with ritualistic care and genial fussing, the favorite dish of highway chefs—hobo stew. Finding two pieces of almost equal size Potts squeezed the snow brisk fire between

uncertain, were brought forth. Potts twisted their heads off, ripped down their bodies with a pudgy forefinger, disemboweling them with the same operation, and pitched them forth into the hobgoblin brew. A small, choice assortment of seasoning vegetables brought the concoction to an artistic consummation—a fat carrot with the scraggy green plume unremoved, three onions, and a miscellaneous handful from the bottom of one pocket which he turned inside out and shook into the can, blandly indifferent to the fact that articles which were not, strictly speaking, edible had also joined in this last minute avalanche.

Then, with a sigh of delight, Potts sat down to await the satisfactory moment when the stew would be thoroughly cooked. To Bob fell the task of stirring the steaming mess with a casual stick, the other end of which he used as a poker to goad the fire.

Meanwhile, during the foregoing preparations, Potts had alternated his culinary incantations with an eloquent description to Bob of the history and nature of this place in which the fate of the night road had taken them. Potts told Bob that in the first years of the trestle's existence over Granite Gorge rockslides from Old Witch's Mask—so called because its leering face, nosing close to the mid-arc of the sharp curve around which the tracks approached the Gorge, hid the trestle from view until the last moment—had been disastrously troublesome. For a long time the Old Witch's dirty face had shed boulders, like pox stones of almost equal size Potts scales from a countenance of evil and sin, despite the cultural efforts

Potts' threadbare pockets were like magician's hats.

them until the stones were close enough for the bottom of the stew can to just bridge them. He kept adding fuel, and poking and nursing the fire into greater ardor, muttering to himself incantatively the while. When the water came to a boil, Potts stood up. An expectant smile wreathed his chubby features; and while he smacked his lips, winked his eyes, and wagged his head in professional vanity he began to empty the contents of his grimy pockets into the bubbling water.

"A feast fit for two kings—aye, for a whole kingdom of kings—will be the result of this evening's culinary activities, my young friend," he said unctuously. "I've been a whole week collecting the ingredients for this dish!"

A short week ago Bob's appetite would have evaporated upon witnessing the manufacture of this stew. But tonight he was cold and hungry and miserable. Again, his mouth corner twisted—ironically, yet he realized with a sudden bitter catch in his chest that the appetizing interest with which he watched Potts was just another sign—that he no longer cared. It was the real drifter's viewpoint!

Potts' threadbare pockets were like magician's hats. First out of them came a large and softening tomato, with Potts squigged between his fingers, tearing it into bits that he dropped into the boiling water. Four potatoes, in various stages of health, were similarly treated; four more potatoes, fished from his limitless pockets, were thrust into the fire beneath the can to roast. A naked piece of raw meat was taken from the pocket of honor—inside his coat—and shredded in to join the vegetables. Three small fish, cause and time of death

of the road's best construction engineers who massaged and braced and cared for the complexion of the Old Witch as carefully as the skin of a testy dowager might be treated in a beauty parlor. Finally their work had won comparative safety for the Gorge passage; rocks showered down no more and, as twenty years went by without a slide, the locomotive drivers no longer slowed up, as in the old days, except to the point dictated by ordinary caution. "The Limited Mail," the Transrockian's famed flyer, habitually was taken across the Gorge at thirty-five an hour, and better.

To people moving on the lawful business and pleasure traffic of the world, the bald and forbidding nakedness of Granite Gorge, high and deep in the lost places of the Rocky Mountains, gave no invitation to linger. There was plenty "for to see"—once!—in its sheer immensity of drops and jutments and leaps, but nothing "for to admire" because it was with sinister and not with gracious strokes that Nature had sculptured here. A chill wind constantly brushed the railroad trestle span; and like a rattler's incensed warning the narrow granite gash gave back the labored roars of passing locomotives with a resounding and venomous resentment. Trainmen and passengers breathed easier when the Gorge passage lay behind. It was with wisdom aforethought, the legitimate accommodation of necessity to virtue, that the Transrockian directors had arranged their through schedules so that the several crack flyers of the road crossed the Gorge at night.

"The Old Witch is a nice girl," mocked ribald trainmen, "when she's asleep!"
